

## Training Agenda - April 11, 2019

### Description for the **docuBridge FIVE** training

Participants will learn how to create a new application (US version 3.3) and the basics of compiling modules 1 (regional information), 2, 3, 4 and 5 (STFs). We'll look into multiple user editing, hyperlinks & bookmarks, reference node & cross application referencing. Participants will re-use data by merging and cloning applications as well as manage the lifecycle of their applications.

Time	Topics
8:00 - 8:30 AM	Registration
8:30 - 9:30 AM	Creating new application DTD version 3.3 eCTD attributes/metadata (module 2 - 5)
